

HUSH ABSORBER 50

Designed to eliminate echoes and sound reverberation, Hush can provide acoustic absorbers in a variety of stylish finishes. Whilst creating a tailored interior design, the acoustic absorber will provide a practical and efficient way of dampening sound reverberation within rooms, halls, corridors and virtually any other internal space.

The Hush Absorber 50 is a Class A Absorber that works using a specially formulated 50mm thick acoustic foam and is hand finished with interior fabric that is applied to the face, edges and back return.

ACOUSTIC PERFORMANCE

Absorber Thickness	Sound Absorption Coefficient							Absorber Class
	125Hz	250Hz	500Hz	1000Hz	2000Hz	4000Hz	α_w	
50mm	0.3	0.65	1	1	0.9	0.8	0.9	A
