

HUSH MAT 15

Hush Mat 15 is a high performing acoustic floor system. This uniquely engineered acoustic rubber ensures superior acoustic performance is achieved when reducing impact sound. The product contains high levels of mass which in turn contributes to airborne sound reduction also, this is not normally the case with acoustic flooring.

When used in the right applications, Hush Mat 15 can be used over most lath and plaster and resiliently fixed plasterboard ceilings to ensure compliance to all UK Building Regulations.

ACOUSTIC PERFORMANCE
